About D.P. Builders & Developers

D.P. Builders & Developers is a premium luxury and high end real estate company that caters to the upper end of the residential and commercial sale and leasing market in Madhya Pradesh. Our approach is based on professionalism, trust and respect for the consumer. We have an able team of young and dynamic agents and professionals with a diverse set of experiences and skills in order to best leverage our position as a premium and respectable brand in the real estate space in India. The team is founded by Mr. Devendra Golait, highly experienced professionals from Related Industries. The company was formed in the year 2020 to cater to the growing need for quality educated professionals and to address the trust deficit and adequate due diligence gaps in the real estate agency space in India. We are proud to say that we have quickly climbed our way to the very top echelons of the luxury real estate market and aim to be the first truly respected global real estate firm from India.

About D.P. Builders & Developers

As the demand for residential homes and properties increases due to increased urbanization and rising household income, D.P. Builders & Developers is fully equipped to meet the rising influx of home owners looking to buy or invest in high return locations and properties across Madhya Pradesh. India's growing economy is driving the demand for commercial and retail sectors as well apart from demands of space from sunrise sectors such as education and healthcare. With the government of India helping with policy support and allowing FDI (foreign direct investment) of upto 100 % for townships and resettlement projects, we are well poised at a crucial inflection point in the real estate industry in India.

Vision

Our vision is to become the truly professional and branded real estate company to emerge from India with global aspirations

Mission

Our Mission is to set global benchmarks and standards of excellence in the Indian Real Estate Market.
